

# Sneak Peek at 2012-13 Yerkes Observatory Teacher Workshops for Teachers, Administrators, and Friends

Saturday September 8 2012 - 2:30 'til 9:00 p.m.

*Stars At Yerkes*

**Using Authentic Data + Doing Authentic Research = STEM in the Classroom**

*CPDUs available - Light Dinner Provided - \$10 Fee*

Please join us for a relaxing afternoon and evening at historic Yerkes Observatory to learn how Yerkes Outreach Educators have incorporated STEM into their classrooms. An overview of some of the authentic science experiences you can bring to your classroom by attending workshops will be presented by Stars at Yerkes Outreach Educators.

In the evening, we invite you to bring that old telescope that's been lurking in the attic and we'll help you set it up and train it on Mars!

*Receive an orientation to our historic observatory*

**Meet, hear, and participate with professionals who have incorporated STEM into their classrooms through:**

NITARP - NASA/IPAC Teacher Archive Research Program

SOFIA - Stratospheric Observatory for Infrared Astronomy

**SOFIA**

Stratospheric Observatory for Infrared Astronomy

Astrometrica - Asteroid Search

Pulsar Search Collaboratory

Skynet and StoneEdge Remote Telescopes
